THE NEW REMEDY VERY WONDERFUL**Washington Man Tells How Plant Juice Relieved Him from the First.**

"Several thousands of people in Washington already know of the marvelous restorative, corrective and vitalizing powers of Plant Juice, the new herbal stomach remedy. Many who

WALTER H. LONG.

have believed themselves beyond all earthly help have been fully restored to health, after all other remedies failed," said the Plant Juice Man, who has his headquarters at the People's Drug Store, corner of Seventh and E streets northwest, in a recent interview.

"However, there are some who are so incredulous as to doubt the merits of this preparation. It is with the aim of overcoming this skepticism that I am publishing daily the signed testimonials of well-known local people, who have actually tested it, so there will be no doubt in the minds of the skeptical as to the truth of this assertion."

"A statement recently received from Mr. Walter H. Long, of No. 935 Maryland avenue southwest, who has resided in Washington for a number of years and has many friends and acquaintances, will be of interest. He said:

"I had suffered for a number of years with my stomach, and had no appetite whatever. I could not keep the lightest kind of food in my stomach, as it would ferment and cause gas to form. I suffered agony after eating; I was nervous and couldn't sleep at night, and my liver was out of order, which made me awfully dizzy at times. I was constipated, and lost from two to three days a week at my work. I had tried everything I ever heard of in the shape of medicine, but nothing did me any good until I started to take your Plant Juice. I can truthfully say that I got relief from the very first dose, and I am now able to eat anything and digest it. I sleep well and have not an ache or pain. I cannot say too much in praise of this wonderful remedy, Plant Juice."—Adv.
